

COVID-19 TESTING

Bourbon County, KS Economic Development

TRIAGE

A means to screen potential patients, collect data, and prioritize available tests.

AT RISK WORKFORCE

Mechanism to screen healthcare or other employees on site and gather data

VULNERABLE POPULATION

Empower nursing home or assisted living to be proactive, giving them the tools and data to influence decisions.

PRIVATE/PUBLIC PARTNERSHIPS

Engage private foundations and other organization's support by means of financial or in kind resources, such as training and certifications.

HEALTHCARE SECTOR

Leverage key organizations in the healthcare sector, including public health, to engage in training resources from MRIGlobal and Heart to Heart International. Encourage employer's occupational health programs participation in order to gain access to quickly screen target populations.

TESTING SYSTEM

Cepheid (GENEXPERT)
Abbott

PPE

Work with Emergency Management to obtain necessary protection.

DATA BASE

Software to support the collection, entry, and analysis of screening data taken during triage, testing, and recovery.
