

# BOURBON COUNTY COVID-19 PLAN

March 14, 2020, Bourbon County Commission declared a state of disaster as a result of the Coronavirus pandemic (COVID-19). Shortly after on March 26, 2020, the County Public Health Officer issued an order to stay at home.

Data &  
Informing

Our goal now is to facilitate an effective path forward.

Capacity  
& Tools

---

## Needs right now.

04.05.2020

---

### #1 Rapid data collection of essential workers

We are seeking tools for health indication data collection at our worksites of healthcare providers, EMT, law enforcement officers, and essential businesses.

---

### #3 Improve patient communication.

Current processes in place have a 3-5 day time delay from the time of sample collection to when results are received. This needs to be shortened extensively to allow critical health decisions for the County citizens.

---

### #2 Increase communication between public/private healthcare entities

Obtain technology to provide a central standardized process for communication of decision making data.

---

### #4 Promote a consistent message

Seeking a platform that will updated in real time to ensure uniformity and accuracy of messaging.

---
